

Dear Shane Dinen,

January 17, 2012

I am glad that you have expressed an interest in our incredible Work from Home business. Ordering the Decision Package confirms your commitment and desire to make a change, and I'm excited to work with you and help you achieve your goals.

When I first started in this business, I also had a personal coach who helped me every step of the way. My coach provided initial training, helped to develop my business plan and showed me how to implement a plan to start earning money my first week! As your coach, I'll be working closely with you to provide the same support that I received.

Getting started in this business is a two-step process. The first step is to review the material in this Decision Package, to gain a general understanding of our industry and business system. This will prepare you for the second and most important step: completing a personal consultation. During your phone consultation, we will discuss business details and I will answer any questions you might have so that we can get you started as fast as possible.

TO PREPARE FOR YOUR PERSONAL CONSULTATION:

Visit www.myobspack.com and complete ALL 5 steps (15 mins MAX)

- **STEP 1** – Listen to an audio introduction – Welcome to Online Business Systems (3 MINS)
- **STEP 2** – Watch a business preview video – Learn about our industry and our business (4 MINS)
- **STEP 3** – Watch a lifestyle preview video – Imagine the possibilities (3 MINS)
- **STEP 4** – Create personal and business goals – Understand your needs and state your expectations (2 MINS)
- **STEP 5** – Email your coach – Set up your next scheduled conversation (3 MINS)

It's exciting to have the freedom and flexibility of being your own boss and working right from the comfort of your own home. After I can determine your needs and goals, I'll put together a business plan and you can get started on your business immediately.

I look forward to working with you!

Warm regards,

Barb & Dave Lemaster

Phone: 888-342-5419

E-mail: banddassoc@theonlinebusiness.com

PAYMENT DETAILS

Preliminary Charge Received: \$9.95

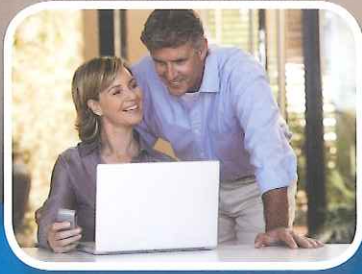

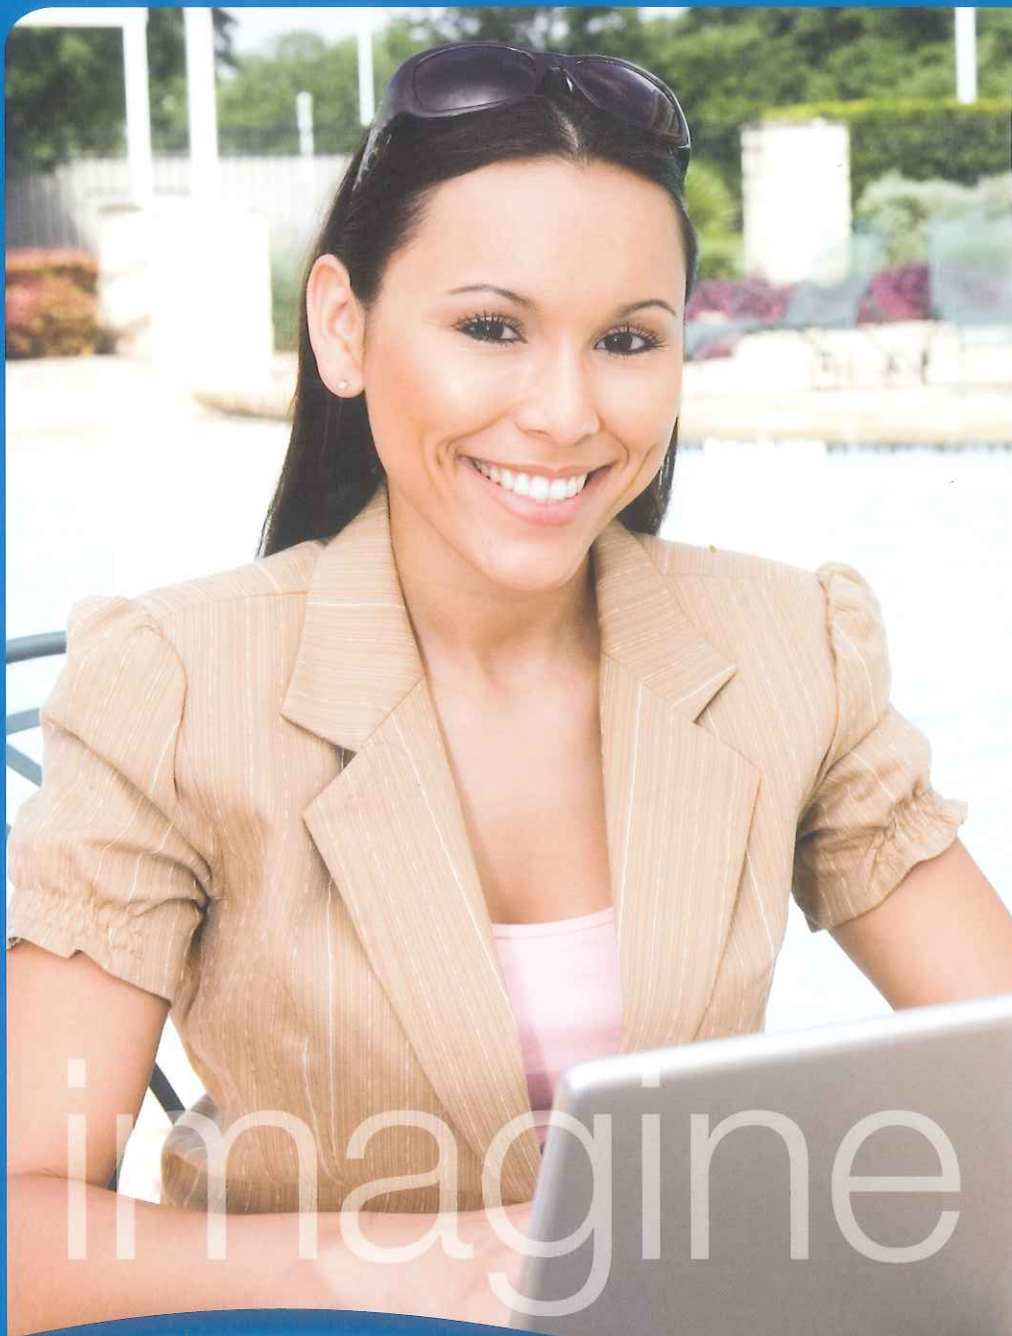

Your Credit Card will Read: B&D Associates

Upon completing the online order form for these materials, you checked a box to agree to the terms & conditions. As outlined in these terms, you understand and agreed to pay a preliminary charge of \$9.95 shipping & handling. Once the order has been processed and shipped, you will have a 15-day period in which to review the package. If you choose to keep the information kit beyond the 15-day review period, an additional \$39.95 will be applied to your credit card to cover the full price of the materials. Note that our 90 day return policy would remain an option provided the package is returned in resalable condition.

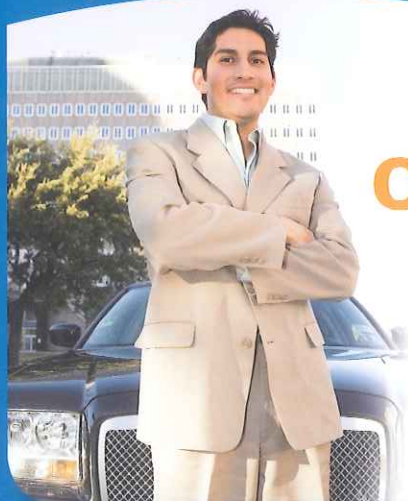

* The incomes presented are applicable to the individuals depicted and are not a guarantee of your income, nor are they typical. Each individual's success will be determined by his or her desire, dedication, effort, ability to follow directions and personal talent.

S120117-173E

Imagine the freedom to work from home online!

OnlineBusiness Systems™

“Learn how this business can change your life. Read about our program, watch the DVD, listen to the CD and call your coach.”

Online Business Systems
BBB accredited **A** rating

Welcome to a world of possibilities – owning your own business!

Congratulations on your decision to make a positive change in your life. Whether you're here because you're looking for more money, more time with your family, more freedom or more security, Online Business Systems offers the right company, the right marketing system and the right leadership team to help you achieve your dreams.

This booklet is a companion to the 'Decision Package,' which also includes a DVD/video and an audio CD. You will find the discs in the back of this book. Please take some time to watch the DVD, and you'll want to listen to the audio presentation too. Just pop it into your car's CD player or computer. These three components account for the varied learning styles we all have (visual, audio and print media). Together, they outline Online Business Systems and begin to answer frequently asked questions. After reviewing the entire package, you will have gone through a self-screening process that surfaces the most interested individuals. This will ensure we are attracting a strong team of committed people to work with.

possibilities

Do you need a change? Are you looking for a better way?

You probably have ordered this package because you're looking for more in life. You may be like thousands of others who are on the threshold of stepping out and taking a risk by embracing change. The harsh economic reality of living the American dream – or rather, not living the American dream – in the 21st Century is staggering. In order to realize your financial dreams and find a better way, you'll need to have a plan.

What are your goals?	1

What are your goals?

You may have heard the quip... "Aim for nothing and you'll surely hit it!" If you want to have any chance to see your dreams realized, you'll need to formulate some realistic goals. As you view the Decision Package, write down your goals and see if this material helps move you closer to where you want to be.

Maybe you want to spend more time with your family and friends, or have more time to yourself. Perhaps you just want extra money to do the things you've always wanted to do. Money in the bank can take the worry out of monthly bills, college tuition for your children and future health care costs. An extra \$500-\$800 a month also could mean a payment for a new car. A good strategy and a system to follow can help you achieve financial freedom. Now's the time to focus on what you really want out of life, make a change and put your plans into action.

The general direction in which something tends to move is called a 'trend,' unlike a 'fad,' which is short-lived. Trends stay around for a while and are worth capitalizing on. While some segments of the marketplace are in decline, others are poised for explosive growth in the next decade.

Home-Based Business, Health and Wellness, and the Internet are the top three growth industries today. Imagine the unlimited potential for building wealth if you had a proven system that could effectively combine all three areas. Small Businesses and Home-Based Businesses will continue to be the biggest areas of growth in the business sector, employing an expected 90% of the work force by 2010.

Online Business Systems effectively has combined all three top growth industries to create an explosive business model that can generate profits for years to come.

Online Business Systems
BBB accredited **A** rating

The earnings of the individuals are not necessarily representative of the income, if any, that you can or will earn through your participation in this opportunity. The incomes depicted are representative of some of the most successful participants and the majority of individuals earn less. These figures should not be considered as guarantees or projections of your actual earnings or profits. Any representation or guarantee of earnings would be misleading. Your success in this opportunity results only from successful sales efforts, which require hard work, desire, diligence, leadership and personal talent.

The rewards of working from home are worth it

Finding Online Business Systems was the best thing that happened to our family. We were previous business owners that kept us away from home 12-15 hours a day. When we heard about Online Business Systems and called our business coach to get more details, we realized that we had nothing to lose and everything to gain. We jumped in right away and made a commitment that we were going to make this work for the sake of our family.

Just like any other business, it takes serious commitment and self discipline, but the rewards of working from home are so worth it. In our first month, we generated \$550 and by our fourth month, we had banked \$2,300. By our one year anniversary, we walked away from our other business and now we're working Online Business Systems around our family's schedule.

— Jill & Jamie Verduin, Alton, Iowa

Servicing the 'Boomers'

The exploding **Health** and **Wellness** industry is expanding at an incredible rate worldwide. Economist and Wellness expert Paul Zane Pilzer states, "The trillion-dollar industry of the twenty-first century has arrived, and it promises to similarly revolutionize our lives and offer entrepreneurs and investors the opportunity to amass great fortunes."

In fact, U.S. retail sales for the consumer packaged goods health and wellness industry reached more than \$112 billion in 2008, representing growth of 9% over 2007. And those growth numbers show no signs of letting up anytime soon.

Internet usage shows no signs of slowing down either. In 2000, there were approximately 360 million internet users. Today, that number is at 1.6 billion and climbing. And as the economy takes a downturn, internet sales are starting to replace many 'brick-and-mortar' traditional sales.

"I didn't consider myself an expert on the computer or internet, but I followed this step-by-step system. I was mentored all along the way by my coach and was able to make \$500 in my very first week."

Home-Based Business – 'Small Business' is not small business anymore! The opportunity to have your own successful home-based business is more attainable now than ever before. And with the tide quickly changing from big corporations to small enterprise, this is a strategic time to make the move. Don't become a victim of 'downsizing' – 'downsize' yourself with a carefully laid out plan and a proven system.

The Work from Home industry currently generates more than \$400 billion a year in revenue from people wanting and starting their own home-based businesses.

- With job losses high and traditional employment options limited, many people are turning to self-employment and small business. The prior three U.S. recessions have seen small business formation rates increase – especially personal businesses.
- In February 2009, American businesses were cutting more than 23,000 jobs per day. The U.S. economy has lost more than 4.4 million jobs since the beginning of the current economic slowdown, the highest level since the downturn in the early 1980s.
- In December 2008, 681,000 workers were laid off, the worst month on record since October 1949.
- Half of American households make less than \$48,201 a year.
- Today's two-income families have a lower standard of living than their parents did on one income.
- The percentage of Americans using the internet has reached 80%. Some 40% of those over the age of 66 regularly go online, a 29% increase in nine years.
- Some 7.7 million Americans (5% of the working population) hold down more than one job.
- Only 5% of all Americans who reach the age of 65 will be able to depend on their own resources to maintain their current lifestyles.
- In 2008, U.S. bankruptcies totaled nearly 1.1 million, with more than 97% of those filed by consumers.

Servicing the 'Boomers'... and beyond! Sociological factors affect business. Between 1946 and 1964, the U.S. population mushroomed like never before. During that period, approximately 70 million babies were born; hence the familiar term – 'Baby Boom.' Those 'infants' now are in their 40s, 50s and 60s – the biggest consumer group on the continent. As the 'baby-boomers' get older, their needs have changed... from diapers, to bicycles, to vehicles, to homes, to motor homes, and the list goes on. Fortunes have been made servicing this demographic. Look what happened to Gerber baby food in the 50s and 60s, Mattel toys in the 70s, real estate in the 80s, the stock market in the 90s, and now the health and wellness industry – it has captured the attention of the baby boomers as they're seeking to look younger, feel better and live longer. Supplying the wellness trend to baby boomers is a path to wealth – if you have the right system and products.

Wellness

This aging population is beginning to place an incredible burden on medical and health care systems. People are seeking to maintain or better their quality of life. In fact, 70% of 'Boomers' say they need to lose 10-50 pounds or more. They want to feel better, look better and lose weight.

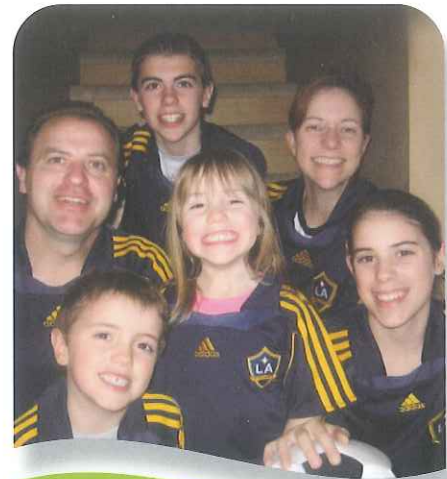

And what about the generations that are coming up? One in four children is considered obese. Heart disease and stress-related illness is at an all-time high. Wellness practitioners, preventative medicine, and good nutrition practices are needed now more than ever before. According to Paul Zane Pilzer, author of the best selling book, "*The Wellness Revolution*," one seventh of the U.S. economy – more than \$1.5 trillion – is devoted to the healthcare business.

Online Business Systems is an independent marketing system that is affiliated with one of the largest wellness companies in the world. With annual sales of 3.8 billion in 70 countries worldwide, this more than 29-year industry leader has developed innovative products with mass appeal that are affordable, consumable and 100% guaranteed.

Our kids have 2 stay-at-home parents

As a gemologist and a general contractor, our kids spent more time at day care than they did at home with us. There had to be another way! We heard about Online Business Systems on the radio in early 2002 and we decided to take a "leap of faith." Would this home-based business allow us to be with our family and not have to worry about making the mortgage payment each month?

Our first month, working part time, we earned nearly \$900. We were hooked! The step-by-step process and the support of our personal business coach had us on the fast path to really living our dreams. Within 18 months, our kids had two stay-at-home parents. We have left the long hours and financial worries behind and realize every day, just how amazing that is.

– Anne and Mark Bullen,
Vancouver Island, B.C.

Your shot at lasting wealth

Seven years ago, I was selling real estate – some months I made great money, while other months were bone dry. Nicole was going to medical school in America and I was living in Canada. We had a long commute to see each other and money was tight. When I found Online Business Systems, I knew I could make it work to bring us the extra income we needed. In my first month, I made \$600; in my second month, I made \$900. After just 13 months, I was up to \$6,000 a month so I quit my full-time job. My income has continued to climb every year and it's a bit hard to believe myself, but this year, I will make more than a quarter of a million dollars! That's the power of residual income.

– Shawn and Nicole Dahl
Vancouver, B.C.

Leveraging the Internet

Internet

Did you ever imagine that the internet would 'explode' the way it has over the past several years? It's hard to conceive life without being online. In 1993, 10% of U.S. households were using the internet or an 'online service.' By 2000, 360 million people worldwide were using the net... and today, the online population is a staggering 1.6 billion worldwide. Now that's what we'd call a growing market! Some \$1.2 trillion a year is done in e-commerce.

The average start-up cost for a franchise business is \$87,500, while the average start-up cost for a home-based business or 'micro-franchise' is less than \$500.

The exponential growth of the internet, even after the 'dot-com bomb,' simply is mind-numbing. It has created unprecedented financial opportunities for average people. There literally are billions to be made with the world's traffic walking right past our 'front doors.' Will you take advantage of this unique opportunity by putting a proven system to work for you and your family? There's a HUGE market that you can reach if you have the right tools and training.

Online Business Systems
BBB accredited **A** rating

The earnings of the individuals are not necessarily representative of the income, if any, that you can or will earn through your participation in this opportunity. These figures should not be considered as guarantees or projections of your actual earnings or profits. Any representation or guarantee of earnings would be misleading. Your success in this opportunity results only from successful sales efforts, which require hard work, desire, diligence, leadership and personal talent.

Opportunity knocks

When you add it all up, the combined revenue in these industries comes to more than \$2 trillion a year. If you want to make money... if you want to achieve long-term wealth, long-term success, and stability... you need to get in on the industries that are HOT. You need to have foresight and a little vision into the future. You need to get in on an industry that's growing.....

With Online Business Systems, there is an unprecedented opportunity to connect all three trends. Will you be in a position to profit from this wealth explosion? You can be sure that you will watch others profit from it, even if you do nothing about it.

There are many avenues to pursue when owning your own business. But not all will deliver the same results.

Playing the numbers

- The Work from Home industry generates more than \$400 billion a year in revenue.
- More than \$1.5 trillion is devoted to the healthcare business.
- About \$1.2 trillion a year is done in e-commerce.

Timing – The right industry;
the right opportunity;
the right time to get involved!

opportunity

Working from home has its advantages

67% of people don't get enough sleep.

Home-based business owners can wake up when they're done sleeping!

The average American employee spends 12-14 hours a day away from home.

You could spend those extra hours around your family.

Some 51% of people are behind on retirement savings.

A home-based business can help you earn extra income for retirement.

Some 80% of Americans work more than 40 hours per week.

You could work at home and set your own hours.

The average American commuter spends one hour each day in traffic.

You could work from home and walk to work.

The average annual North American household income is \$43,000.

The average North American income with a home-based business is \$64,000.

Pay your bills... easily

I was an engineer and my wife was an at-home mom. As our family grew, we found it increasingly difficult to pay all the bills from just one salary. So my wife took a part-time job driving a school bus. After seeing the kids off to school every morning, I'd leave for work and wouldn't get home until after they were asleep. Over time, the bills began to pile up and we found ourselves facing personal bankruptcy. We signed up with Online Business Systems, and with help from our personal coach, we saw immediate results – making \$500 in our first month. After only 16 months, we earned more than \$10,000 a month. We've had to work hard to get where we are, but that's OK with us. We're now spending the "quality time" with our children that we always dreamed of and paying the bills no longer is a challenge.

– Phil and Sharri Keogh
Loretto, Ontario

What are your options?

- **Not working** – Not many people can afford to stop working and have their money work for them. Unemployment simply is not an option. And for those people who work for someone else, half of them do not even have a retirement pension. Plus, they're probably giving the government about 50% of all they 'earn' in some form of tax or another. Less than 2% of the North American population generates true wealth. How can you become one of them?
- **Working for others** – How much do you value your time and skill? Will you continue to trade dollars for hours and make somebody else rich? Will you be subject to downsizing, mergers and layoffs? Maybe it's time for you to start working for yourself. At the very least, you can start taking advantage of the tax breaks for business owners and offset the taxes you pay by working for someone else.
- **Working for yourself**
 - Starting from scratch always is an option. But keep in mind that only 15-20% of new business startups still are alive after five years. And many of those 'survivors' are not profitable. With additional headaches, expenses and long hours, many small business owners only have managed to create another 'job' – that doesn't get them any further ahead than they were beforehand!
 - Franchises can be very successful. But the high start-up costs (\$87,500 and up on average – which doesn't include the real estate, construction of a facility, etc.), are prohibitive for most people.
 - A 'personal franchise' or 'micro-franchise' is the model for the future. It is simply you, the individual, as a contractor using an already established working system of marketing and distribution – without the inherent risks of a traditional business. With a very low start-up cost, you can be 'in business' and making money within days or weeks. You can earn what you're worth by following a proven method that can help you start realizing your financial dreams.

The earnings of the individuals are not necessarily representative of the income, if any, that you can or will earn through your participation in this opportunity. The incomes depicted are representative of some of the most successful participants and the majority of individuals earn less. These figures should not be considered as guarantees or projections of your actual earnings or profits. Any representation or guarantee of earnings would be misleading. Your success in this opportunity results only from successful sales efforts, which require hard work, desire, diligence, leadership and personal talent.

What's motivating you?

You may not be 100% sure of what you're looking for quite yet, but chances are you're probably dissatisfied with where you are today. Like most people, you probably want more control over your future and more time with your family. It's a well-known fact that the richest people in the world look for and build businesses. Everyone else looks for work. Where do you see yourself over the next 5, 10, maybe 20 years – looking for work or leading a successful business?

Whether you're looking to supplement your income or replace it with financial independence, our business model can help you achieve your goals.

Most people who start with Online Business Systems actually know very little about business, advertising or the internet. And that's OK. We will help you build your business from the ground up – that's our commitment to you. Our business model combines proven, tested and systematized marketing methods with technologically advanced e-commerce systems that you can easily operate from the comfort of your own home. You can become overwhelmingly successful without ever talking to anyone you personally know.

How do I choose a business? – Robert G. Allen's simple 'what to look for' approach.

- The right company
- The right marketing system
- The right leadership team

Robert G. Allen in his #1 New York Times Best-Selling book, *"Multiple Streams of Income,"* says that there are three essential things to look for when you get involved with a home-based business. First, you must select the right company that offers consumable products, has a consistent track record and offers a simple compensation plan that rewards effort. Secondly, you need to tap into the right marketing system, and finally, it must utilize the best leadership team available.

Online Business Systems offers all three essential elements – the right company, marketing system and leadership team.

I never will answer to a boss again

Five years ago, I was a piano teacher in my late 20s working a crazy schedule and barely making ends meet. I'll be honest, here....when I first found Online Business Systems I was a little skeptical, because I had tried other things before that didn't work out. But once I talked with my business coach and learned how she was making six figures working at home part time around her young family, I decided to get started right away.

By my 2nd month in business, I earned over \$800 and after one year, I was earning more money running my business part time than I had made teaching piano full time. I'm now earning over \$5,500 every month. My time is my own – my day starts at 10:00 a.m. – no more rush hour traffic, and I never will answer to a boss again!

– Adam Page,
Vancouver, B.C.

Think objectively.
Try the SWOPs exercise.
When you look at
different options for
your life, consider
seeing things through
the 'SWOPs' matrix.
Ask yourself, "What are
the strengths in this
plan? Weaknesses?
Opportunities? Potential
obstacles to overcome?"

Our unique marketing system

Online Business Systems is what Michael Gerber, in his book, "*The E-Myth Revisited*," coins a 'Business Format Franchise.' Simply stated, it is a belief that the true product of a business is not what it sells, but how it sells it. He states, "The Business Format Franchise not only lends its name to the smaller enterprise but it also provides the franchisee with an entire system of doing business." There are no prior educational requirements – your business coach will help you learn while you earn. You can work from home on your own terms, set your own hours and earn what you feel you are worth.

Online Business Systems is a 'duplicatable' model. And it is in that duplication that personal wealth is generated. That is, when money is working for you instead of you 'working for money.' You can have a network of motivated people working for your benefit. You will be in business for yourself, but not by yourself!

There are many advantages that distinguish Online Business Systems from other opportunities. Here are some:

- A unique marketing system that leverages the internet, radio and newspapers to find interested people who want what we have to offer.
- Lead generation and database marketing methods distinguish us from other systems. You can access these tested and true marketing avenues to help you build and drive your business to levels you may never have dreamed possible.

unique

Small Businesses:

- Represent 99.7% of all employers.
- Employ roughly half of the U.S. labor force.
- Pay more than 40% of the entire U.S. private payroll.
- Generate 60% to 80% of new internet jobs annually.

Plus...

- Some 9 out of 10 people who build a business never have owned one before.
- Only 50% of traditional business start-ups are alive after year one and by year five, only 15-20% still are running. However, business models with a proven system have success rates up to 85%.

- A complete pre-screening system brings people to you and screens out the 'tire kicker' customers.
- High-tech phone, direct mail, e-mail and voice mail systems that speed up and automate your business.
- Regular phone consultation from a personal coach means you're not alone out there. You can call your coach whenever you need help.
- Great resources at your disposal (such as a Training Manual that covers every detail of the business plan step-by-step).
- Access to an individualized website that your personal coach will help you set up. This website will pre-qualify people as interested leads, communicate with them, receive orders and help you operate a turnkey, automated e-commerce business.
- The opportunity to participate in live trainings.
- Satellite training broadcasts that can be viewed from home.
- On-demand 24-hour online training allows you to follow your own schedule.
- Telephone conference and in-person training will keep you up with the latest business trends and strategies to help increase your wealth.

Key factors in starting a successful business

- **Timing** – Tap into a huge expanding market by meeting the ever-increasing needs of 'baby-boomers' and the generations following them.
- **Quality** – Align yourself with excellent products, services and people.
- **Consumables** – Be involved with products that cycle every 30-60 days. You want to get paid over and over again.
- **Training** – In the information age, it's not what you know...it's how fast you can learn it. Ongoing and high-level training that teaches vital information and techniques to keep you on the leading edge.
- **Marketing** – Follow a plan that brings people to you.
- **Compensation** – Find a compensation plan that pays well and rewards effort long after retirement.

We did it.... you can too

For 20 years, we worked together in the printing and graphic industries. Industry changes and downsizing began to significantly impact us, so we started looking for a way to build a retirement income in a business that would allow us to continue working together. We found this online business and, despite our skepticism, we decided to give it a try. In our first month, we earned \$1,200 and our second month, \$2,400. After only 10 months, we now earn more than \$5,000 per month! Now we're able to travel and set aside money for our retirement. Our positive attitude and willingness to work hard is paying off and we're finally able to earn what we feel we are worth!

– Mike and Rosie Bottal
Port Orchard, Washington

We guide you every step of the way

After years of working in information technology, I was ready for a change. Tired of 10-12 hour days, commuting, the uncertainties of the economy, and never enough time to really enjoy life – the opportunity to work from home really grabbed my attention. When I learned that I would have my own personal business coach to guide me in starting my business, I was sold. My coach helped me get my business up and running. The step-by-step approach enabled me to get started, while still working my full-time job. By following the plan, my monthly income steadily increased to more than \$4,000 by my third month and it has increased every month since. In less than a year, I said goodbye to my old job. I finally feel like I'm in control of my time, my income, and my destiny – exactly what I was looking for.

– Debbie Pagani
Pittsburgh, Pennsylvania

How will I earn income?

We will teach you how to advertise through the internet and traditional methods so that interested, pre-screened people come to you. You'll acquire retail customers and develop business leaders who are interested in building a lifetime of residual income.

You can generate daily cash flow from online retail sales, earn royalty pay and receive monthly cash bonuses. You also can qualify for company paid vacations.

Each income story that you've read or heard about so far represents people from all walks of life. People who come from average backgrounds that possessed one thing in common – they never stopped dreaming and never stopped striving for more.

How much can I earn?

- **Supplemental Income** – for those people who want \$500-\$1,000 extra per month to supplement their income. This is very achievable working part-time (5-10 hours a week).
- **Career Income** – Greater effort can equal greater reward. In fact, the compensation plan is designed that way. If you want to earn \$3,000-\$6,000 or more per month and work the business full-time, you can.
- **Financial Independence** – The sky is the limit! For motivated individuals, the promise of residual money coming in – day-in and day-out – is a real draw. It's not unheard of for people to make \$8,000-\$15,000 or more each month.

At the end of the day, you'll get out of your business what you put into it. Think seriously about your goals....your dreams....your future. Then decide what's best for you.

J. Paul Getty once said...

"You must be in business for yourself. You'll never get rich working for someone else."

The earnings of the individuals are not necessarily representative of the income, if any, that you can or will earn through your participation in this opportunity. The incomes depicted are representative of some of the most successful participants and the majority of individuals earn less. These figures should not be considered as guarantees or projections of your actual earnings or profits. Any representation or guarantee of earnings would be misleading. Your success in this opportunity results only from successful sales efforts, which require hard work, desire, diligence, leadership and personal talent.

After one year, I fired my bosses

Six years ago, I was working two part time jobs. My life was crazy. I got up, took my children to their respective schools and headed to my first job. At 2:00 p.m., I raced to my second job in real estate, and later that afternoon, I ran to pick up my kids. I always felt behind, frustrated and exhausted. I wanted to be home with my kids, and when I found Online Business Systems, I knew that I'd found the best opportunity to make my dream come true.

Working closely with my business coach, I earned over \$1,000 in my first month in business. Within three months, I made \$2,600, and within one year of working part time, I replaced the income from my two part time jobs. I fired my bosses and I came home. Today, I earn a six-figure income. I'm privileged to home school my children and I'm actively involved in their lives. What a change, to be LIVING rather than existing.

– Cheryl and Bruce Trenary,
New York, N.Y.

What's my next step?

What will be required of ME?

- A Positive Mental Attitude to succeed in life and in business.
- A Strong Desire to change your current situation.
- A Willingness to listen to your coach and follow your plan.

Regardless of your background, you can make money from home using our simple and powerful marketing system. And remember – we are not a company based on friends and family, door-to-door sales or telemarketing. In our system, people come to you!

So maybe this is the time for you to make a change. There may be no better time than right now!

What's my next step? Call your coach. That's the person listed below. Your coach will be happy to answer any additional questions you may have and will help you get started right away.

Whatever your goals may be – a few hundred dollars a month to supplement your income, a career change to replace your income or financial freedom – Online Business Systems offers the right company, the right marketing system and the right leadership team to help you achieve your goals.

Every successful person reaches a turning point in their life. A time when they've made a clear, specific decision that they need to make a change. Some people make that decision at 18; others make it at 60. And some people never make it at all.

Call your coach today!

Your next step is to call your coach immediately. Success is not an accident – it's purposeful, planned and deliberate. Now it's up to you to take it from here.
